Dr. Joel Rothman is Distinguished Professor, Wilcox Family Chair in Biotechnology, and founding Director of the Center for Aging and Longevity Studies at UC Santa Barbara. He has served as Chair of the Department of MCD Biology and Director of the Biomolecular Science and Engineering Program at UCSB and has also been a professor at the University of Wisconsin, Madison and New Zealand's University of Auckland. Prior to receiving his doctorate, he was the head winemaker at Buena Vista Winery in Sonoma and a classical music radio program announcer. For over three decades his laboratory has investigated regenerative medicine, aging, and longevity, supported by many research grants from the National Institute on Aging and other agencies. He is an elected Fellow of the American Association for the Advancement of Science.
